New Website in the Works!  
Content to focus on services provided, people helped

We are excited to announce the pending launch of an entirely redesigned CHS website! A target date of October 15th has been set to “go live” with the new site.

It is our hope that a more streamlined website will make it easier for clients, prospective clients, and supporters of CHS to better access our information and learn about what services are available and ways they can help support these services. The new site will also be updated more regularly and feature current stories and events built around our programs and community.

Please visit our new site and feel free to call 831-658-3811 with any suggestions or with things you would like to see added to our fresh, new web presence.

The website address will remain the same - www.chservices.org.

Community Human Services to Open New Outpatient Treatment Centers:

Services will fill a growing need in the community
By Marta Sullivan, Senior Program Officer

Community Human Services (CHS) will soon be opening new outpatient treatment centers in both Monterey and Salinas! CHS has been providing quality treatment options for over forty years, and, with the Affordable Care Act and Medi-Cal expansion enabling more men and women to access treatment services, the time is right for us to move into the outpatient substance abuse treatment arena.

The Outpatient Treatment Centers will provide affordable, comprehensive alcohol and drug rehabilitation for people who do not require residential care. The outpatient program is designed to meet the needs of individuals who suffer from a substance abuse disorder but have been unable to stabilize their use on their own.

We understand that each person comes to treatment with diverse issues and problems and we are sensitive to our clients’ needs, preferences and readiness to change. Because we recognize the need for family education and involvement we will be offering counseling services and family groups to complement our other services and to provide support and guidance. Each client will receive a comprehensive assessment and be assigned a primary counselor who will work to develop an individualized treatment plan aimed at meeting their goals.

CHS would like to offer a fond farewell to Youth Services Program Officer Vincent Delgado. Vincent started volunteering at Safe Place in 2008, while attending CSUMB. After receiving his B.A. in Social Behavioral Sciences he began working full-time at Safe Place as a Street Outreach Counselor. In late 2011 he was named interim Youth Services Program Officer and several months later, in early 2012, he was named to the position outright. Vincent’s youth, enthusiasm, leadership skills, and solid background allowed him to make numerous positive impacts on the program. He is well-respected by peers, subordinates, volunteers and clients and his leadership and personality will be missed tremendously. Vincent moved back to Southern California to be closer to his family and CHS wishes him great success in all of his future endeavors.

Fortunately, Shirley Millico, also a former Street Outreach Counselor at Safe Place, has been hired to take over the Youth Services Program Officer position. Shirley has a Masters Degree in Social Work from San Jose State University and a wealth of experience working with and volunteering with at-risk youth in our local community. She last worked at Safe Place in 2005 and since then has continued to build on her education and expertise as a youth Counselor. In her new role she will oversee Safe Place and Safe Passage. We are pleased to welcome Shirley to the CHS team and look forward to benefitting from her passion to help youth in need. If you get a chance, stop by Safe Place and say “hi” to the newest member of our Leadership Team!

A Torch is Passed at Safe Place

New Program Officer a friendly and familiar face
